" BE SEEN, BE SAFER "

# WHY CHOOSE YOLITE?

There are many safety clothing manufacturers in the world, but fewer can offer you the quality and price as we do. We provide unparalleled safety solutions based on our 15-plus years of export experience and innovation. Making sure your requirements are met on time and to the highest quality is our top priority!

Leading manufacturer of safety clothing and key material reflective tape, better quality control & best possible pricing.

Export to over 70 countries, keep a full understanding of industry tendency worldwide.

Products certified to meet Oeko-Tex 100, EN20471, ANSI107, AS/NZS1906, AS/NZS4602, CSA-Z96 etc.

Factories certified by ISO 9001:2015 and ISO 14001:2015.

Mature and efficient supply chain and QC system that have been running for over a decade.

Superior customer services, professional sales team to offer the most appropriate and cost-effective solutions.

Professional design team to provide excellent ODM services to worldwide clients.

Innovative developments to offer new reflective tapes and unique designs.

### EN ISO 20471:2013

**European Standard for High visibility Clothing & Accessories**

**EN 20471** imposes requirements on visible workwear for employees in high-risk areas. The employees will be visible and safe at night, during the day, and from all angles.

There are three classes which are related to risk assessment and are defined by the minimum areas of background fluorescent and retro-reflective material.

**CLASS 2** performance is of intermediate level. It requires a minimum of $0.50m^2$ of background material and $0.13m^2$ of retro-reflective material.

## ANSI/ISEA 107-2015

**American National Standard for High-Visibility Safety Apparel & Accessories**

ANSI 107-2015 standard includes a "Type" structure that keeps off-road ("Type O"), roadway ("Type R"), and public safety ("Type P") garments separated by application and work environment. The types are further broken down into classes 1, 2 or 3. Three classes help the user to choose the proper garments based on expected work environment risks.

**TYPE R** (Roadway use) garments are for occupational workers who are exposed to roadway traffic and who work in an environment with moving equipment/vehicles.

**CLASS 2** garments are of intermediate level, for workers who will be exposed to traffic with speeds in excess of 25 mph. It requires a minimum of 775 in²(smallest size 540 in²) of background material and 201 in² of retro reflective or combined performance material.

**CLASS 3** garments provide the highest level of safety, for workers who will be exposed to high speed traffic or reduced sight distances. It requires a minimum of 1240 in²(smallest size 1000 in²) of background material and 310 in² of retro reflective or combined performance material.

## CSA Z96-15

**Canadian Standard for High Visibility Safety Apparel**

**CSA Z96-15** describes the requirements for high visibility apparel for Canadian workers to be seen by vehicle operators, especially in low-light conditions or darkness. CSA lists three classes of garments based on body coverage provided.

**CLASS 2** apparel has full coverage of the upper torso (front, back, sides and over the shoulders). Stripes/bands shall be composed of retro-reflective or combined performance materials, and are to be displayed to ensure 360° visibility.

**CLASS 3** apparel provides the greatest body coverage and visibility. Apparel meets the same requirements as Class 2 with the addition of bands around both arms and legs.

**CSV-124**  Sizes: M-4XL

CSA-Z96 Class 2, Solid Tricot, 2" Silver Reflective Tape, Hook and Loop Front, 5-point Breakaway, X Pattern Back, 4 Pockets, Fluorescent Lime / Orange.

**CSV-125**

## AS/NZS 4602.1:2011

**Australia / New Zealand Standard for High Visibility Safety Garments**

**AS/NZS 4602.1** specifies the visual requirements for high visibility garments to ensure appropriate visibility for workers who may be exposed to traffic hazard in high risk situations. It also refers to another standard AS/NZS 1906.4:2010 for the reflective material that are used in the garments.

There are three classes relating to the application of the garments. Class D for daytime use only, Class N for nighttime use only, and Class D/N for day and/or night time use.

**CLASS D** garments made from high visibility background materials without retro-reflective tape, are designed for daytime use only. The minimum area of high visibility background material shall be no less than 0.2 m² both front and back.

**CLASS D/N** garments combine high visibility background materials with retro-reflective tape, making them suitable for day and night use, or for workplace with low light conditions. Retro-reflective tape shall comply to AS/NZS 1906 and in specific tape configurations.

**AS/NZS 4602.1**

Innovation and customized developments are our top priority. Chinastars is a leading manufacturer of reflective tape and custom made safety clothing with over a decade of experience. As a result, Chinastars can offer you professional suggestions and provide you excellent OEM & ODM services.

## COMMON FABRICS

Below are some of the most commonly used safety clothing fabrics for your reference:

### Tricot Fabric
120gsm, 100% PES, EN 20471/ANSI 107, Suitable for Certified Solid Safety Vests.

### Filament Fabric
60gsm, 80gsm, 100gsm, 100% PES, Suitable for Non-rated Solid Safety Vests & Piping.
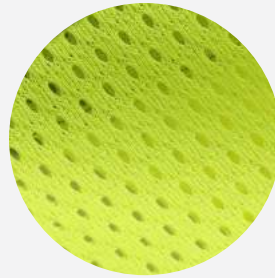

### American Mesh
110gsm, 100% PES, ANSI 107, Suitable for Certified Mesh Safety Vests.

### Mesh Fabric
55-60gsm, 90gsm, 130gsm, 100% PES, Suitable for Non-rated Mesh Safety Vests.

### Twill Fabric
130gsm, 100% PES, EN 20471/ANSI 107, Suitable for Work Suit.

### Birdeye Mesh
130-140gsm, 100% PES, EN 20471/ANSI 107, Suitable for T-shirt.

### Jersey Fabric
180-200gsm, 100% PES, EN 20471/ANSI 107, Suitable for T-shirt.

### Pique Fabric
200gsm, 100% PES, EN 20471/ANSI 107, Suitable for Polo Shirt.

### Oxford Fabric
150D, 300D, 100% PES, PU Coated, EN 20471/ANSI 107, Suitable for Rain Wear, Jackets.

### Fleece Fabric
260gsm, 280gsm, 300gsm, 100% PES, EN 20471/ANSI 107, Suitable for Sweatshirt.

### Reflective Printing Fabric
Custom Reflective Patterns, Printed to Various Base Fabrics, Suitable for Safety Vests, Jackets.

### Reflective Fabric
Highly Reflective at Night with Light, Silver Grey in Daylight, Suitable for Outer Shell Jackets or Safety Vests.
